

Woodford County Conservation District

APPLICATION FOR FIELD COVER CROP—CORN, SOYBEANS and TOBACCO 2022

Name: _____

Address: _____

City, State, Zip: _____

Phone: _____

SS #: _____

FSA Farm #: _____ Ag Water Quality Plan: Yes: _____ No: _____

Acres: _____

Actual Cost: _____

This cost share practice will pay \$20 per acre for up to 100 acres, for the planting of a cover crop after harvest of corn for grain or silage, or soybeans in the fall of 2022. This cost share practice will also pay \$20 per acre for up to 50 acres, not to exceed 50 acres for the planting of a cover crop after harvest of tobacco in fall 2022.

The cover crop can be wheat or rye, and can be harvested for grain; grazed or harvested for forage; as well as planted into, in the spring. Other cover crops will be considered on a case-by-case basis (for example: tillage radishes, turnips - must be planted in a timely manner).

After planting a cover crop, please bring to the WCCD office: this form, your bills for seed, FSA form 578, and a map indicating the acres and fields planted. Woodford County Conservation District encourages all producers to report cover crops to the FSA office located in the Agriculture Resource Building.

The cover crop should be planted before December 1, 2022.

First come, first served until funding is depleted. Spot checking will be done by the Woodford County Conservation District Board. Funding subject to board approval.
